

December 9th

VOTE FOR
REPEAL

Defend Religious Freedom

This ordinance limits the scope of both free speech & the free practice of religion guaranteed to us by the U.S. and Arkansas Constitutions. It goes as far as to dictate the criteria by which churches hire their own staff and doesn't recognize individual rights of conscience.

Protect Women & Children

In order to provide special rights to the LGBT community, this ordinance puts our women and children at risk. A sexual predator who falsely claims to be transgender will be given access to public women's locker rooms, changing rooms, and bathrooms. This includes stores, businesses, parks, public facilities, churches, & private schools.

Support Job Growth

This ordinance allows a disgruntled employee, job applicant, or patron to make a claim of discrimination against a business which can result in a CRIMINAL charge, fines, and even jail time for the business owner. It far exceeds current EEOC, HUD, and state laws. According to the Chamber of Commerce, Chapter 119 is unworkable and unacceptable to business because of its negative impact on business.

Our religious freedoms are under attack in Fayetteville and nationwide. The same group who was behind the push to subpoena pastors' sermons in Houston is the same group pushing Chapter 119 in Fayetteville.

Houston Pastors Leading Protest Rally

Fayetteville

Chapter 119 dictates the criteria by which churches hire their own staff for "secular" roles.

San Antonio

The original ordinance would have barred anyone speaking against homosexuality for appointed office.

Houston

The opposition subpoenaed all sermons, emails & text messages of pastors who stood against them.
