

2025 General Assembly Report

For the Arkansas Senate and House of Representatives

Family Council 414 S. Pulaski St, Suite 2 Little Rock, AR 72201 (501) 375-7000

Dear Friends,

Family Council is pleased to share this 2025 Arkansas General Assembly Report. It is a snapshot of how lawmakers voted on key legislation related to social and moral issues. Guided by our mission of promoting, protecting, and strengthening traditional family values, Family Council focused heavily on 24 laws that passed in the Arkansas House and Senate during the 2025 legislative session. These measures dealt with religious liberty, the sanctity of human life, education, alcohol, marijuana, Arkansas' ballot initiative process, and similar issues. Family Council supported 21 of those laws and opposed three of them. Lawmakers' voting records on these measures are organized alphabetically by the lawmakers' last names, starting with the state senate.

This General Assembly Report is an educational resource for voters. It is not an endorsement of any candidate or political party. It does not measure any lawmakers' integrity, commitment to their faith, work ethic, or rapport with Family Council. It is only a report on how each lawmaker voted on 24 specific measures. Not all lawmakers voted on every bill, and the report notes when that is the case.

One of the most common questions Family Council's supporters ask is, "How did my legislator vote?" This report should help answer that question.

Sincerely,

Jerry Cox
President
